

# ACICIP 400

## FEATURES:

- **BREAKS UP MINERAL DEPOSITS**
- **DOES NOT CORRODE STAINLESS STEEL WHEN USED AS RECOMMENDED**
- **EFFECTIVE ACID WASH**

## AREAS OF USE:

- **CIP**
- **PLANT & EQUIPMENT PROCESSING**

## DESCRIPTION

ACICIP 400 is tailored for use specifically for Clean-in-Place equipment. It breaks up mineral deposits preventing build-up. Used as recommended it does not corrode stainless steel.

Effective as an acid wash or acidified rinse in C-I-P, conventional or override methods of cleaning.

- Form: clear, pale yellow liquid
- Foaming: nil
- Specific Gravity @ 20°C: 1.14 – 1.15

NZFSA APPROVED C31 – (All animal products except dairy). NZFSA Dairy Approved h1951

## DIRECTIONS FOR USE

Use at between 0.3 – 2.0% according to soil type and equipment being cleaned. Use at temperatures of 40 - 70°C. Rinse with portable water after use. Contact a Jasol representative for use instructions tailored for specific installations.

## SAFETY INFORMATION

Contains nitric and phosphoric acid, can cause chemical burns. Avoid contact with skin, eyes, and clothing.

When mixing always add ACICIP 400 to the water; add slowly to surface of solution to avoid splattering.

Wear protective clothes and facemask.

Do not mix with any other chemicals.
