

Earthon[®] Front and Top Loader Laundry Powder Regular

In today's troubled environment we need to go the extra mile — for tomorrow's sake. The Earthon Laundry Powders from Diversey have been specially formulated to have a minimal impact on our environment. Earthon is our commitment, and yours, towards sustainable living solutions for our planet. Pretty good for your clothes too!

- Performance Boosted
- ✓ Biodegradable
- ✓ Phosphate FREE
- ✓ Sensitive Skin
- ✓ Grey Water Friendly
- Front and Top Loader

Environmental Update

- x NO Phosphates phosphate pollution starves waterways of the oxygen needed to support aquatic life producing uncontrolled algal blooms that contaminate drinking water and destroy ecosystems
- x NO Ammonia or Nitrates these can contaminate ground and surface water, promote oxygen starvation and algal growth, while high concentrations can be toxic to animals, amphibians and fish
- x NO EDTA or NTA a synthetic, phosphate alternative which can re-dissolve toxic heavy metals trapped in underwater sediments, absorbing them back in the food chain
- x NO APEOs APEO is a type of surfactant that can be harmful to aquatic life
- x NO Fragrances, Dyes or Enzymes some are made from petroleum solvents and do not degrade; some have toxic effects on aquatic life. Earthon is free of fragrances and dyes which can cause skin irritations and allergies like eczema
- x NO Animal Testing
- YES The surfactants used in Earthon are Readily Biodegradable according to Australian Standard 4351
- YES Earthon is suitable for use with septic tanks
- ✓ YES Earthon has a performance boosted formulation containing anionic and nonionic surfactants
- YES Earthon is grey water friendly you can use the water from the rinse cycle to irrigate your garden*
- YES Earthon's Flip It bucket is made from at least 15% recycled PP. It's recyclable and reusable too, with various useful applications around the home, or the farm
- ✓ YES Earthon's scoop is cardboard, reusable and recyclable
- ✓ YES Earthon has been formulated for hot or cold water

*Consult your local council for use of greywater.

All manufacturing processes have some impact on the environment. Our task was to make a laundry detergent with low impact and high performance.

Use Overview

ECO TIPS

- Follow the dosage instructions
- Use the lowest acceptable wash temperature to save energy
- ▶ Conserve water do full wash loads. Some washing machines use the same amount of electricity and water whether full or half empty.
- > Use the ECO or Fast Wash cycle where possible
- Recycle your plastic bucket

WASHING TIPS

- Follow garment care instructions
- Wash non-colour fast clothes separately
- If clothing is stained wash or soak immediately
- > Do not overload the washing machine
- It is not recommended to add chlorine bleach
- Do not soak non-colour fast items
- earthon- is NOT suitable for silk, wool or other delicate fabrics.
