

FLEETMASTER GOLD WASH & WAX

Vehicle Detergent

DESCRIPTION

Fleetmaster Gold Wash & Wax is designed with Australian conditions in mind. Designed to remove heavy road film with minimal agitation. **Fleetmaster Gold Wash & Wax** is ideal for use before painting earthmoving equipment.

APPLICATIONS

Fleetmaster Gold Wash & Wax breaks the electrostatic bond of heavy metals, ie: lead, zinc, copper, bauxite and normal road film commonly found in Australia, emulsifies grease, oil and dirt thus making it simple to clean with a pressure washer or steam cleaner. **Fleetmaster Gold Wash & Wax** has effective corrosion inhibitors to stop rust in chassis seams etc.
