

Protein & Stain Spot

Protein and Stain Spotter

495 Protein and Stain Spot is a protein and blood spotter for removing a wide variety of organic stains such as food, gravy, beverages and blood from carpets. It combines powerful protein dissolving chemistry with wetting and penetrating technology for dissolving protein soils and releasing them from fibres and fabrics.

BENEFITS

- **Innovative Chemistry** – Protein & Stain Spot not only provides a tough solution for a tough problem, but uses modern innovative technology to ensure that every dollar spent is producing maximum results.
- **Protein Stain Removal** – Protein & Stain Spot removes stains caused by egg, gravy, milk, blood, vomit and other protein sources.
- **Dynamic Penetration Feature** – The inclusion of super wetting and penetrating agents ensure that Protein & Stain Spot quickly and effectively wets out the fibres, carpet backing and even the substrate below to ensure total elimination of all areas which have been contaminated.
- **Easy to Use** – Protein & Stain Spot comes in a convenient ready-to-use form.
- **Self-neutralising (PH). No soil attracting residues.**

HOW TO USE

Directions

Always pretest in an inconspicuous location for substrate sensitivity to chemicals.

Spot Removal

1. Scrape or blot up all loose surface soil.
2. Apply Protein & Stain Spot undiluted to the stain area. Spray or blot solution onto the spot. Do not over wet.
3. Apply this solution onto the fibre or fabric until it is wetted out.
4. Agitate solution using a carpet rake or tamping brush or bone scraper.
5. Allow 5 – 10 minutes reaction time.
6. Rinse with tepid water.
7. Allow to dry. Assist drying by increasing ventilation.
