

Surface Sanitiser SmartDose™

Surface Sanitiser

Surface Sanitiser SmartDose is a concentrated quaternary ammonium chloride-based, no rinse sanitiser for use on all hard surfaces including food contact surfaces in food premises.

The SmartDose™ system provides maintenance-free setup (no installation, water connection or servicing) and requires little training for exceptional performance. It utilises automatic and precise doses per application to deliver consistent cleaning for your everyday hygienic needs.

Effective

- ▶ No-rinse sanitiser for three-compartment sinks and food contact surfaces
- ▶ Automatic measurement delivers precise doses per application, providing consistent cleaning

Versatile

- ▶ Safe for soft metals

Easy-to-use

- ▶ Three simple steps to deliver accurate dosing that eliminates guesswork

Designed For

- ▶ Food Service
 - ▶ Retail
 - ▶ Lodging
 - ▶ Education
 - ▶ Healthcare
-

Use Overview

Directions for Use:

See SmartDose dispensing system operating instruction sheet enclosed in each case. Automatically dispense from SmartDose package for bucket or bottle fill.

Bottle fill: Fill spray bottle half with water. Select spray bottle icon on SmartDose bottle, pull up on selector knob and completely push down on selector knob to dispense product into spray bottle. Finish filling the spray bottle with water. Use at one dose per 1L of water.

Bucket and Sink Fill: Fill bucket or sink with 20L of water. Select bucket icon on SmartDose bottle, pull up on selector knob and completely push down on selector knob to dispense product into bucket. Use at two doses per 40L of water.

1. Apply diluted solution liberally to the pre-cleaned surface to be sanitised.
2. Allow contact time of 3 minutes and let surface air dry.
3. Direct contact with prescribed goods must be prevented and treated surfaces adequately drained before processing operations resume.

In NZ, a rinse with potable water after application is required when the product is used by operators processing non-dairy animal products who are operating under the Animal Products Act (APA) regime. Fish processing plants are excluded from this requirement.
