

Virex II JFlex

Hospital Grade Disinfectant
Cleaner and Deodorant - Concentrate

Virex II J-Flex is an effective low odour quaternary based disinfectant cleaner for use in hospitals, nursing homes, schools and colleges, veterinary clinics and medical laboratories where controlling the risk of cross contamination is of prime importance. Virex II J-Flex provides broad spectrum germicidal activity and kills HIV, HBV, VRE, MRSA, Influenza Type A, controls mould and mildew and more.

Features

- ▶ Virex II J-Flex is a concentrated liquid cleaner / disinfectant.
- ▶ The optimal blend of quaternary ammonium compounds, wetting agent and chelant in Virex II J-Flex makes it very effective as a disinfectant against a wide spectrum of micro-organisms.
- ▶ Virex II J-flex is a Hospital Grade Disinfectant registered with the Therapeutic Goods Administration with AUST R 153031.

Benefits

- ▶ Effective against a wide spectrum of micro-organisms, helping to improve hygiene security
- ▶ Suitable for use on all washable surfaces
- ▶ The patented J-Flex system eliminates chemical wastage and contact with neat product
- ▶ Concentrated formula provides economy in use and reduces packaging waste

Designed For

- ▶ Lodging
 - ▶ Office Buildings
 - ▶ Education
 - ▶ Healthcare
 - ▶ Retail

Bacteria

Acinetobacter calcoaceticus
Bordetella bronchiseptica
Enterococcus faecalis
Enterococcus hirae
Haemophilus influenza
Legionella pneumophila
Listeria monocytogenes
Micrococcus luteus
Micrococcus sedentarius
Neisseria gonorrhoea
Staphylococcus aureus
Staphylococcus aureus (Toxic Shock)
Staphylococcus epidermis
Staphylococcus haemolyticus
Staphylococcus agalactiae
Streptococcus mutans
Streptococcus pyogenes
Vibrio cholera
Escherichia coli
Proteus vulgaris
Pseudomonas aeruginosa
Staphylococcus aureus

Antibiotic- Resistant Bacteria

Enterococcus faecalis, Resistant to Vancomycin (VRE)
Staphylococcus aureus, Resistant to Erythromycin, Penicillin, Streptomycin, Tetracycline
Staphylococcus aureus, Resistant to Methicillin (MRSA), Gentamicin (GRSA)
Staphylococcus epidermis, Resistant to Methicillin (MRSE)

Viruses

Adenovirus Type 2
Cytomegalovirus
Herpes simplex Type 1
Herpes simplex Type 2)
Hepatitis B Virus
HIV
Influenza Type A₂/ HongKong
Parainfluenza Type 3
Respiratory syncytial virus
Rotavirus
Vaccinia virus (small pox vaccine virus)
Avian Infectious bronchitis, (IBV)
Avian Influenza
Canine distemper
Feline viral rhinotracheitis
Infectious bovine rhinotracheitis
New Castle Disease Virus
Pseudorabies Virus
Transmissible gastroenteritis virus (TGE), (U of Minn. Strain)

Fungi (controls fungi/mould/mildew claim)

Aspergillus niger

Yeast

Candida albicans

Use Overview

Directions for use

(See J-Flex operating Instruction Sheet enclosed in each case).

The J-Flex dosing system provides controlled dosing of Virex II J-Flex at 1:256 for triggers and bucket filling.

1. Rotate selector to BOTTLE and fill bottle or rotate to BUCKET and fill bucket.
2. Cleaning and Deodorising: Apply to surfaces, wipe over and allow to air dry.
3. Controls Mould and Mildew: Apply to pre-cleaned hard, non-porous environmental surfaces. Allow to air dry. Repeat application weekly or when growth reappears.
4. To Disinfect: pre-clean dirty surfaces with Virex II J-Flex. Apply Virex II J-Flex at 1:256 to pre-cleaned surfaces for 10 minutes. Wipe over surfaces and allow to air dry.

Technical data

Description	
Appearance	Dark blue liquid
Odour	Minty
pH (concentrate)	10.0 – 10.5
pH (Use Dilution)	9.4
Shelf life	2 years
Specific Gravity	1.0 (water=1.0)

Available Items

Code	Description	Pack Size	Dilution	Availability
4026726	Virex II J-Flex	2×1.5L	1:256	AU & NZ

Safe handling and storage information:

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet. Store in original container. Discard solutions after use. Do not mix with detergents or other chemicals. Store below 25°C.

Product compatibility:

Under recommended conditions of use, Virex II J-Flex is suitable for use on most washable non porous materials commonly encountered in environmental cleaning. It is ideal for use in hospitals, nursing homes, schools and colleges, veterinary clinics and medical laboratories where controlling the risk of cross contamination is of prime importance. This product is not intended for use on therapeutic devices.

Safety Reminder:

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use, and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDSs are available online at www.diversey.com or by calling Toll free: Australia, 1800 647 779 or New Zealand, 0800 803 615.
