DESCRIPTION

ZAP is based on a mild organic acid and powerful detergent technology with a pleasant citrus fragrance to provide safe effective and naturally pleasant smelling cleaning of all bathroom surfaces without hard scrubbing.

ZAP will remove stubborn scum and grime and thus eliminates most bacteria and mould by removing their nutrition and their place to live!

ZAP is safe to use the hard surfaces such as shower screens, tiles, taps, sinks, toilets, baths, spas, and benchtops made from acrylic, chrome, stainless steel, ceramics, and fibreglass, that are found in bathrooms, kitchens, and laundries. ZAP is safe to use in septic systems. ZAP must not be used on marble surfaces.

ZAP revives the sparkle that should be in your bathroom!

ZAP is a yellow mobile, pleasant smelling liquid containing surfactants, organic acids, d-limonene and food grade yellow dye.

DIRECTIONS FOR USE

For best results squirt ZAP onto the surface then wipe the film to spread the detergent evenly. Leave for 30-60 seconds then rinse off. Thick deposits may need some scrubbing action prior to rinsing.

SAFETY INFORMATION

- **SKIN CONTACT:** Rinse from skin with cool water.
- **EYE CONTACT:** Flush with cool water for 15 minutes.
- **INGESTION:** Do not induce vomiting, drink two glasses water. Call Doctor.
