

Urine Rescue

Neutralises Urine Stains & Odours

493 Urine Rescue is a unique spotting solution for high performance removal of urine stains and the associated odours. This formulation contains stabilized hydrogen peroxide for powerful urine crystal & stain removal. Use Urine Rescue where other treatments have failed. Some older, stubborn urine stains will only respond to the powerful Hydrogen Peroxide neutralization treatment. Also effective on many coloured and organic stains.

BENEFITS

- **Stain Removal** – Urine Rescue employs the power of Hydrogen Peroxide to neutralize the toughest urine and pet stains. It will also remove many colour stains such as wine and cordial.
- **Odour Removal** – The hydrogen peroxide in Urine Rescue provides powerful oxidisation of bacteria and odour causing germs.
- **Non Residual** – Urine Rescue leaves absolutely no residues behind and does not need to be rinsed.
- **Colour safe** – Urine Rescue is safe for use on colourfast fabrics and carpets.
- **Fibre Safe** – Urine Rescue is safe for use on natural and synthetic fibres, however fine fabrics must be pre-tested for fibre and colour stability before use.

HOW TO USE

Directions

Always pre-test in an inconspicuous location for substrate sensitivity to chemicals and dye stability.

1. Remove by steam extraction as much of the urine spill as possible, doing extra dry vacuum strokes.
2. Apply Urine Rescue undiluted onto the affected area.
3. Agitate solution using a carpet rake or upholstery cleaning brush.
4. Allow 2 to 6 hours dwell time for full stain removal. Keep pets and people off treated area during this time.
5. Rinse with clean water or dry vacuum after treated area is completely dry.

Note: Urine Rescue is sensitive to heat and light. Store out of direct sunlight and avoid storing it in your van for lengthy periods. Store the Urine Rescue inside and only store a small bottle in the van. Replace this at least one per month.
