

GP14

MPI APPROVED C31 (All animal products except dairy) DISHWASHING - GENERAL PURPOSE

GENERAL DESCRIPTION

GP14 is a dishwashing liquid which does much more than simply wash dishes!

GP14's components provide not only the needed muscle in chemical action for the many applications of this product. **GP14** is especially effective on glass, crockery, metal and all modern plastic utensils used in kitchens today. **GP14** has long lasting suds under heavy food soil loads and stops the slick feed on tableware thus reducing breakage risk.

PROPERTIES

Base	Anionic and non-ionic surfactant blend.
Emulsifying Power	Complete
Wetting Ability	Rapid and Positive
Colour	Yellow
Solubility	Instant and Total
Odour	Lemon
Foam	Abundant and Stable
Metal Safety	Safe on Aluminium Ware
