

APPLAUSE
NZFSA APPROVED C51
BACTERIOSTATIC LIQUID HAND SOAP

INDICATIONS

Hand washing in food processing areas, hospitals, rest homes and other areas where bacteriostatic activity is required.

PHYSICAL AND CHEMICAL PROPERTIES

Physical Form	Viscous Liquid
Odour	Nil
Colour	Creamy White
Biodegradability	Affirmed
Foam Tendency	High
Hard Water Tolerance	Affirmed
Freeze/Thaw Stability	Affirmed
Shelf Life	1 year

FEATURES AND BENEFITS

APPLAUSE combines a blend of mild surfactants and emollients along with Irgasan a most efficient bacteriostatic agent which makes for a product suitable for use in food processing and other areas which require reduced risk of cross contamination.

APPROVAL

APPLAUSE has New Zealand M.A.F approval under class C51.

DIRECTIONS

Wet hands and rinse to remove gross soiling. Place 1-2ml of **APPLAUSE** in the palm and work up to a rich lather. Rinse off under fresh running water. Finish by air drying or using sterile cotton or paper towelling.
